REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the closest prior art is considered to include Robinson et al (US 2006/0124452 or US 7,494,579), Jiricny et al's article "A study of the spouted-bed electrowinning of copper", Spiegel et al (US 6,298,996) and Hradil et al (US 2002/0195333 or US 6,936,142). However, none of the prior art references of record teach or suggest the external, generally vertical duct for circulation of the falling bed of metallic beads in the electrowinning cells. All of the prior art references made of record teach an internal duct ("draft tube") for circulation of the falling bed of metallic beads.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
